Crimson Paddle & Swimmer Of The Session

The Crimson Paddle and Swimmer of the Session awards have been rooted in Fair Acres tradition for many years now. These are both awarded on the last Friday of each session to two campers in each group.

Nominated by the counselors, the campers receiving the crimson paddle represent a group that has put in a little extra effort all around. They have participated in all the activities, made some new friends, done an excellent job listening, and maybe even tried something brand new.

Swimmer of the Session is decided by our certified swim instructors who provide lessons everyday. The recipient of this award has shown great improvement in the water by learning a new stroke, learning to dive, or even putting their head underwater for the first time.

Both the Crimson Paddle and Swimmer of the Session are very prestigious awards here at Fair Acres. All recipients, family, and friends should be proud...I know we are proud of them!

Pickle Ball

The latest game to sweep the nation is now the biggest craze at Fair Acres. Pickle Ball combines a badminton size court with a tennis-like paddle into a fast pace, two-on-two court game that campers love! We held our first Pickle Ball Tournament this week to introduce the rules to everyone. It just so happens, two of our counselors, Zack and Tom, actually spent some time at college playing Pickle Ball and provided some great lessons to the entire camp. Campers will be able to enjoy Pickle Ball as an elective every afternoon, but don't forget...always be ready to PICKLE!
